

SCHOOLS IN WALLSBURG

A combination church house and school building constructed of logs plastered with mud was the scene of the first classwork in Wallsb-
burg. Mrs. Lucina M. Boren taught in the small building which was
located inside the fort walls.

The Wallsburg School constructed in 1904
from red sandstone and still in use.

When the community expanded outside the fort, Martin Ford's home was used as the school and Aaron Thomas, a Christian minister, served as the teacher.

Later, a combination school house and dance hall was built on property owned by George L. Batty. A second school house was built a few years later and boasted two rooms of red sandstone construction. The present school was built in 1904 by Edd Snyder, and also was of red sandstone. When the building was constructed the town was bonded for \$4,000, but the indebtedness was soon paid off and \$1,500 in cash was turned over to the Wasatch County School District when Wallsb-
burg District was discontinued and all county schools were consolidated.
